

**Proposal from ICSC:** to request the Organizing Committee of the Olympiad to provide a local and competent sign language interpreter for the ICSC delegation throughout its stay at the FIDE Olympiad.

Explanation: all players of the ICSC team are deaf, therefore, all of them cannot hear; these players are a special and underprivileged group; specifically and rationally, we need a local sign language interpreter obtained through the local Deaf Sports Association to interpret all relevant activities of the FIDE Olympiad, including its Opening and Closing Ceremonies, speeches by FIDE and other top officials; in other words, the ICSC is seeking an equal and full communication access.
