

**FIDE Trainers' Commission (TRG)**  
**FIDE EB 2011 (Krakow 15-22.10.2011)**  
**REPORT**

**July 25th, 2011**

Dear Mr. President,

During the last period that passed from the 2-2011 FIDE PB, our Commission successfully organised Trainers' Seminars in various countries and we improved our communication with the affiliated federations.

For 2011 we believe that we will be able to contact a minimum of 20 TRG seminars all over the world (annex [Seminars List 2011](#)).

Since re-election in 2010 during the Olympiad in Khanty Mansiysk, the FIDE Trainers' Commission (TRG) continued with developments in chosen directions, as the 2010 FIDE Congress positively evaluated TRG's activities. In TRG Board we have very professional working relations and all our activities are regularly published in TRG's monthly Minutes.

Since Olympiad 2010 TRG conducted many Trainers' Seminars and many trainers obtained new titles and conducted the certification process.

TRG continued publishing instructive Surveys for trainers and in early 2011 all surveys were collected in one book (FIDE/TRG Yearbook 2010) and sent to all certified trainers. We are thankful for FIDE office in Athens for their help in this process.

TRG contacted a lot of potential organizers for future Seminars, as from 01.01.2012 certification will be demanded in all FIDE events. We need to consider the Africa situation; for this reason we can delay for two years the obligatory certification for the African trainers and to start TRG online Academy, a project on which we work recently. We will discuss these problems in Krakow.

Additionally we prepared materials for future explosion of chess in Africa, including computer programs, which we selected last year. And we also selected English and French speaking trainers to work in Africa.

We keep permanent good working contacts with the Arbiters' Commission, Chess in Schools Commission, European, African, American and Asian Continental federations. Very valuable are TRG contacts with CACDEC; we have a lot to offer to the development of chess all over the World.

TRG successfully conducted the process for FIDE Awards for best trainers' achievements in 2010 (as well as for 2009 and 2008). TRG helped establishing new connection with arts, helping to create a FIDE Award, by one of the top World sculptures. Please approve the final results (annex **FIDE Trainer Awards 2008-2010**).

TRG Council members will meet for an extensive 6-days workshop in Krakow, where many subjects will be discussed. Our Agenda in Krakow will consist of:

1. Renew and re-consider the TRG Guide.
2. Approve and design various seminars.
3. Proposals on the structure of the World and Continental Seniors Championships, which we consider as very important for development of chess activities all over the World.
4. Work on new FIDE Awards for the best game and best ending, starting from 2012.
5. Work on selection of very important literature for trainers and propose to be published after the evaluation of TRG in English language, as up to now these valuable books are published just in Russian language.
6. Prepare the final list of new trainers to be approved in the EB.
7. Various other subjects.

Dear Mr. President,

We believe that we have also made a good work during this period of time, but we feel that the road is long and we have to work harder and more effectively, cooperating harmoniously with other FIDE Commissions, Federations and Trainers.

With kind regards,

The Chairman  
Adrian Mikhalchishin

The Secretary  
Efstratios Grivas

Councillor  
Uwe Boensch

Councillor  
Jovan Petronic

Councillor  
Michael Khodarkovsky

Annexes

1. Seminars List 2011.
2. Minutes 05.07.2011.
3. FIDE Trainer Awards 2008-2010.
