Subject: Turkish Language as official language of FIDE

Dear Mr.Freeman,

On behalf of my federation and taking under consideration many countries around world speaking Turkish Language (total estimated number of population is 220.000.000) I officially propose to FIDE General Assembly in Istanbul, to accept Turkish language as one of the official languages of FIDE.

Hereby, I give guarantee on behalf of Turkish Chess Federation, any cost due to accepting Turkish as official language for FIDE Congress in the future, or need for translation will be covered by TSF if there is any request for that. We would be very happy if you take that under consideration and put our proposal to the Agenda of General Assembly in Istanbul.

Best regards

Ali Nihat YAZICI  
President of TSF
