

Christian Krause, Chairman of Swiss Pairing Program Committee

Please find as follows the Agenda for the meeting in Khanty-Mansiysk

81th FIDE Congress 2010 in Khanty-Mansiysk

Agenda for the meeting of Swiss Pairings Program committee:

1. Amendmant to the Dutch Swiss Rules C6  
Old wording: if now p pairings are obtained in compliance with B1 and B2 .....  
New wording: if now p pairings are obtained in compliance with B1 until B6 ....  
The old wording is simply not correct. The new wording is describing what all arbiters are doing now.
2. Amendment to the Dutch Swiss Rules B6 Note:  
Old wording : Ignore B2, B5 and B6 when pairing players with a score of over 50 % ....  
New wording: Ignore B2 (first B2a than B2b ) when pairing players with a score of over 50 % ....  
The rules B5 and B6 are already ignored when pairing procedure has passed C9 and C10 before arriving at this decision point. Therefore this change will be just a correction of wording.  
Up to now there is no rule what to do if there is a choice whether to skip B2a or B2b. The conclusion may be: First B2b than B2a. But this question must be decided.
3. Who will test the program Javapairing of Mr. Eugenio Cervesato according to the Dubov-System  
Mr . Cervesato is applying for endorsement of his program representing the Dubov System.  
A tester for this program should have practical experience using the Dubov System.
4. Proposal of Mr. Dubov for accelerationof pairings  
The proposal transmitted by Mr. Igor Vereshchagin will be distributed seperately to the committee members.
5. Report about endorsement of the program Tournament Director of Mr. Neil Heyward
6. Report about other programs asking for endorsement.
7. Miscellaneuos
